Mangrove

COMPARE

MANGROVE VS KAVOUT

Looking for a Kavout alternative?

Mangrove turns trading ideas written in plain language or code into tested strategies that run with guardrails, while your funds stay in your own wallet.

Start free, no card required

Mangrove or Kavout: the short answer

Choose Mangrove if you want to turn research into executable strategies that are tested across 900 time windows and run with built-in risk controls.

Choose Kavout if you only want research tools across global markets at a lower price.

Why Mangrove

- **Non-custodial:** your funds stay in your wallet, with no lockup. Disconnect anytime.
- **AI Strategy Engine** turns plain-language ideas or code into executable logic with risk parameters.
- **Tested before it trades:** every strategy is backtested across 900 time windows.
- **Built-in guardrails:** stop losses, drawdown limits, circuit breakers and position sizing.
- **Transparent costs:** gas, slippage, spread and exchange fees are accounted for automatically.
- **Scale:** 50K+ strategies generated daily, 4M+ strategies in the dataset and 223 signals in an open-source library (per mangrove.ai).
