Mangrove or Tickeron: the short answer

Choose Mangrove if you want to own and verify your strategies and run them non-custodially with built-in risk controls.

Choose Tickeron if you trade stocks and ETFs and want to follow ready-made AI robots.

Why Mangrove

- **Non-custodial:** your funds stay in your wallet, with no lockup. Disconnect anytime.
- **AI Strategy Engine** turns plain-language ideas or code into executable logic with risk parameters.
- **Tested before it trades:** every strategy is backtested across 900 time windows.
- **Built-in guardrails:** stop losses, drawdown limits, circuit breakers and position sizing.
- **Transparent costs:** gas, slippage, spread and exchange fees are accounted for automatically.
- **Scale:** 50K+ strategies generated daily, 4M+ strategies in the dataset and 223 signals in an open-source library (per mangrove.ai).
