Mangrove

COMPARE

MANGROVE VS DANELFIN

Looking for a Danelfin alternative?

Mangrove turns trading ideas written in plain language or code into tested strategies that run with guardrails, while your funds stay in your own wallet.

Start free, no card required

Why Mangrove

- **Non-custodial:** your funds stay in your wallet, with no lockup. Disconnect anytime.
- **Tested before it trades:** every strategy is backtested across 900 time windows.
- **Transparent costs:** gas, slippage, spread and exchange fees are accounted for automatically.
- **AI Strategy Engine** turns plain-language ideas or code into executable logic with risk parameters.
- **Built-in guardrails:** stop losses, drawdown limits, circuit breakers and position sizing.
- **Scale:** 50K+ strategies generated daily, 4M+ strategies in the dataset and 223 signals in an open-source library (per mangrove.ai).

Which one fits you?

Where Mangrove may fit better

- ✓ You want execution and automation, not only research
- ✓ You trade crypto and want backtesting

Where Danelfin may fit better

- ✓ You want deep stock and ETF research
- ✓ You want a lower price for research only

FAQ

Who holds my funds with Mangrove?

You do. Mangrove is non-custodial: your funds stay in your wallet, with no lockup, and you can disconnect anytime.

Does Danelfin place trades?

No. Danelfin is research-focused. Mangrove builds, tests and runs strategies.

Does Mangrove charge trading fees?

Trading fees apply only to profitable trades, in addition to plan pricing. Students who sign up with a .edu email get 3 months of Intermediate free, then 30% off Intermediate or Advanced for life.

See if Mangrove fits your strategy.

Start on the Free plan with up to 5 paper and 3 live strategies, no card required. Upgrade when you want Strategy Engine experiments.
